Contact your nearest dealer online using our DEALER LOCATOR.

The Voyager is the only convertible trike kit tested for strain and stress by an independent engineering firm. This ensures that the best riding convertible trike kit on the market will last longer than your motorcycle.

CLASSIC

\$5,395.00

The **Voyager Classic** is class, and then more class. It gives you the closest look to a conventional trike with its fiberglass rear assembly. It includes four lights, wiring, two thick fiberglass fenders (your choice below), the fiberglass rear assembly, mounting hardware, suspension hardware, trailer hitch and comes with your choice of 15" chrome or machined gunmetal spoked wheels. If you don't want people admiring how sharp your bike looks, this is not the kit for you.

FLARED FIBERGLASS

CHOOSE A FENDER:

Which one will make your bike look great? All of them. That's why you have the choice. **Fiberglass fender and add the H-D style, Tombstone style or Beehive style lights. Wiring harness is included. See "Accessories".**

REAR ASSEMBLY:

The Fiberglass Rear assembly is specifically molded for two H-D style lights. Whether it's because you want your motorcycle to look amazing or because you want more lights shining to be seen on the road, the rear assembly is as sharp as it is useful.
